Audio/Visual Guidelines

Audio/Visual needs can play a big part in a successful event or presentation. Please have available the following equipment:

- ✓ Wireless lavalier microphone
- ✓ Flip Chart
- ✓ Full house lights (if using projection screens and/or video recording, please use as much house light as possible)

Kenny is a very high-energy speaker and likes to move a lot during his presentation. He'll move side to side on stage and enter the audience as well on occasion. When possible, please keep this in mind when setting up a stage and/or room.
